Tenant Complaint	1
Total Services Provided	101

OUR MODEL

We provide one-on-one support to help individuals complete applications for essential services: rent relief, food assistance, job training, education, and more. We also connect people to our network of over 300 community organizations across the DMV region.

A Message from Our Team

Since our founding, Hungry 4 Change has aimed to make it easier for people experiencing poverty to access the help they need. This year, with the onboarding of our first part-time case manager, Jackie, we've made significant strides toward deepening our impact in our local communities, with the fiscal support of Montgomery County.

OUR CLIENTS, OUR COMMUNITY

- Most of our clients live in Montgomery County, but we serve people in Prince George's County, Washington DC, and Baltimore, regardless of documentation status or housing stability.
- We offer case management in 5 languages: English, Spanish, French, Korean, and Chinese.
- Clients are engaged in shaping our services through pre- and post-program surveys to track progress and suggest improvements.
